

PTD-3G

- 4-quadrant active, reactive and apparent energy measurement with error calculation and start/stop function.
 - Active, reactive and apparent instantaneous, minimal, maximal and average power measurement.
 - Voltage, current and power factor instantaneous values and profiles
 - Voltage and current harmonic analysis
 - Up to 6 profiles with integration period 0,5 – 60 s.
 - Vector diagrams
- Current range 0,5 A – 1000 A (PINCE CII3 ammeter clamp)
- Current range 0,05 A – 100 A (Minipince 5)
